Domain Expertise: MLS Touch, ShowingTime, Matrix, StaxBill, Calabra Ad Builder, RealReports, TransactionDesk, CubiCasa

PROFESSIONAL EXPERIENCE

Stellar MLS | Sep 2022 – Present

Product Owner (2024 – Present) · Product Specialist I & II (2023 – 2024) · Tier 2 Technician (2023) · Support Center Technician (Sep 2022 – 2023)

- Promoted four times between 2022 and 2024, moving from the support desk to Product Owner while expanding ownership across a 9-product core portfolio serving 80,000+ real estate professionals.
- Own 3 primary and 6 secondary product assignments across key platforms including MLS Touch, ShowingTime, Calabra Ad Builder, Matrix, TransactionDesk, Hurdlr, Roombo, Salesforce Customer Experience Portal, and internal analytics tooling.
- Lead a new association onboarding end to end while running QA on a second onboarding in parallel, on a four-month timeline where one typically takes six to twelve; own field mapping, custom commercial forms, and migration decisions, using Copilot to analyze field usage and decide what to keep, drop, or migrate.
- Translate business needs, customer feedback, and adoption data into prioritized requirements, user stories for internal builds, QA plans, risk assessments, rollout communications, and post-launch refinement.
- Created and managed QA documentation across multiple quarterly enhancement cycles for Matrix enhancements, web applications, CRM extensions, and product launches, supporting testing, validation, issue tracking, and release readiness.
- Led an enterprise-wide NAR settlement compliance initiative, driving audit, documentation, rules updates, training materials, and rollout support across forms, fields, website content, remarks restrictions, and internal guidance.
- Serve as Product Owner for StaxBill and its payment gateway, coordinating annual billing enhancements with accounting, marketing, vendors, and executive leadership while managing sandbox-to-production release readiness.
- Built Matrix field-mapping and metadata documentation, directed API and data-pull coordination, helped develop a RESO Data Dictionary, and participated in RESO Data Dictionary workgroup and duplication subgroup meetings.
- Own governance and content quality for internal AI chatbot platforms supporting 10+ departments by maintaining source documentation, coordinating feedback workflows in Monday.com, and improving answer accuracy over time.
- Trained and onboarded 10 technicians, often up to 3 at a time, supporting knowledge transfer and readiness for new tools, workflows, and product updates.

Elite Realty Inc. | Feb 2017 – Mar 2022

Lead Information Technology Specialist

- Served as the go-to internal IT resource for a real estate office environment, supporting PCs, mobile devices, networking, software, and day-to-day operational issues.
- Diagnosed and resolved hardware, software, and connectivity problems, recommended security and hardware improvements, and helped maintain reliable operations for staff and agents.
